## Profile

I am currently specialising in **Interior Architecture in Curtin University, Western Australia** and have completed my diploma in **Architecture in Ngee Ann Polytechnic, Singapore**. With determination and perseverance, I always ensure my projects are completed well and solid. I, especially, have a strong interest in designing unique spaces allowing people to feel a sense of inclusivity and belongingness, constantly seeking ideas on creating a special and one of a kind space for my targeted audiences. With experience in designing for the exterior and interior, I hope to put my passion for designing to good use and make a difference in the design world.

**Extra-Curricular Student Experience**

**Wood Making Study Trip, Hida, Japan**

July 2019

A group of Architecture students traveled to Tokyo and Hida during the term break to learn more about wood making and joinery that is a traditional technique that Hida is famous for. The students learned how to carve wood from locally exported timber.

**Wuhan Student Exchange, Wuhan, China**

August 2018

Students spent 3 weeks in Wuhan, China where they took history and cultural lessons in Wuhan University that provided them a better understanding of the rich heritage and how Wuhan thrived since urbanisation . The students stayed in the local university dormitory and attended lessons with the local students. They also had the opportunity to visit Wuhan's main landmarks and learnt more about the geographic location. This trip was an eye-opener, enriching and fruitful one.

**CUBE Competition, Singapore**

August 2017

A group of 8 out of 90 students were selected to represent Ngee Ann Polytechnic in the Urban Redevelopment Authority (URA) CUBE Competition. They had to design and create solutions based on the problems they identified on the site itself. Our team decided to revive the local spirit of the old Singapore where we used the concept of red roof houses and elevated houses to portray the "village" that Singapore was in the past.
